OBJECTIVE

Seeking a Software Engineering opportunity where I can design Neural Networks, Machine Learning models, NLP applications, and engineer scalable full-stack solutions in an innovative environment.

EDUCATION

Northeastern University, Khoury College of Computer Sciences

Boston, MA

Candidate for Bachelor of Science in Computer Science and Mathematics

May 2027

Relevant Coursework: Graduate Foundations of AI | Object Oriented Design | Logic and Computation

Affiliations: NU Artificial Intelligence | HackBeanpot | Khoury First | infraGuard | Pi Kappa Phi | CareerSprings

PROFESSIONAL SKILLS

Programming and Development: Python | Java | React | Flask | JavaScript | HTML | CSS | Three.js | Next.js | OS | JUnit

Tools and Technologies: Git | AWS services | PostgreSQL | Vercel | Maven

Cybersecurity and Systems: Ransomware | Key-Logger | Metasploit | Ssh | Linux | Kali | ParrotOS | Ubuntu

Artificial Intelligence and Optimization: Neural Networks | Reinforcement Learning | Machine Learning | NLP | Optimization | PyTorch | TensorFlow | OpenCV | Gym

EXPERIENCE

Genesys

Remote

Software Engineer Intern

May 2025 – August 2025

- Migrated caching clients from Redis to Valkey, upgrading backend systems while maintaining protocol compatibility.
- Optimized Java REST APIs with new request/response logic, schema validation, and error handling upto 15% accuracy.
- Supported deployment workflows for Java analytics systems using CI/CD pipelines and AWS services (CloudFormation, EC2, IAM) ensuring reliable delivery.

Northeastern University

Boston, MA

Teaching Assistant for CS4100: Artificial Intelligence

September 2025 – December 2025

- Graded and provided feedback on 50+ assignments and exams each week, ensuring accuracy in evaluation.
- Led engaging recitation classes and office hours, facilitating interactive problem-solving sessions for students.
- Advised student teams on semester-long AI projects, ensuring feasibility, conceptual rigor, and alignment with core AI topics.

PROJECTS

AI Sign Language Interpreter

January 2025 – April 2025

Python | OpenCV | TensorFlow | Pytorch | NumPy | Scikit-learn | mediapipe

[godinezsteven1/AI-SignLanguage.git](https://github.com/godinezsteven1/AI-SignLanguage.git)

- Architected and coded a complete NLP system using HMMs with segmentation, correction, and captioning.
- Collaborated on CNN model training for gesture recognition across ASL, Spanish, and German sign languages with 95% accuracy.
- Created a multilingual dataset pipeline with a custom web scraper, integrating all components into a full-stack app.

SKILLS & INTERESTS

Languages: English | Spanish | French

Interests: Powerlifting | Fishing | HD- Motorcycles | Arduino | Electronics Tinkering | Ethical Hacking | 3D environment design | Soldering
